The theme for this year meeting is "**ERASING PAIN - FROM HEAD TO TOES**". The program covered most cancer and non-cancer pain, not limited to musculoskeletal conditions, with use of Ultrasound versus different images techniques, facilitating in diagnosis and pain interventions, with six hand-on workshops with problem based clinical cases discussions. Besides, there were 10 international and more than 20 local faculty members and opinion leaders joined the meeting, which allowed exchange in clinical experience in this State of the Art field of Musculoskeletal and Pain medicine, using Ultrasound as Point of Care tool for assessment, monitoring and treatment guidance.
