

Hong Kong Pain Society Annual Scientific Meeting 2010

Interventional Workshop

This is a half day workshop to be held at Queen Elizabeth Hospital in the morning from 9:00am – 12:00pm on 23 April 2010 (Friday).

The workshop will be conducted by Dr. Murray Taverner from Australia with Dr. Theresa Li facilitating. It will focus on interventional pain management for low back pain, and will include live demonstration of procedures such as radiofrequency of sacroiliac joint and other percutaneous spinal interventional procedure for pain management, followed by lecture, discussion and sharing of experience with the guest expert. The workshop will be suitable for doctors who care for patients with low back pain.

The preliminary run down is:

1. Introduction
2. Live demonstration in operating theatre with teleconference for the audience
3. Short presentation by Dr. Murray Taverner
4. Open discussion
5. Light refreshment will be included

We have limited space for this workshop. To avoid disappointment, please register early to secure your seat.

The registration fees are HKD 1,200 for HKPS Paid-up Member and HKD 1,600 for non-member.

CME points will be applied for from relevant colleges.

For any enquiry, please do not hesitate to contact the meeting secretariat.
