## Speaker

### **Stephen T. Wegener, Ph.D., ABPP**

Dr. Wegener is the Director of Rehabilitation Psychology and Neuropsychology in Department of Physical Medicine and Rehabilitation at Johns Hopkins University School of Medicine in the USA. He served as President of Division of Rehabilitation Psychology of American Psychological Association, and is currently Vice President of the American Board of Rehabilitation Psychology. He is also a member of the Motivational Interviewing Network of Trainers. His clinical and research interests focus on evaluating factors that influence the development of chronic pain in persons with various musculoskeletal conditions. He is active in developing cognitive-behavioral, self-management and motivational interviewing interventions that can enhance rehabilitation outcomes for chronic pain sufferers. He has conducted scientific presentations around the world.
